

Advancing Substance Use Prevention in HIDTA Communities: Standards, Strategies, & Support

Thursday, October 8, 2020

GOALS

1. Discuss advances in substance use prevention policy and strategies over the last five years in the context of national substance threats.
2. Describe evidence-based practices, programs, and strategies for substance use prevention led by public safety and public health partnerships.
3. Describe critical insights into implementing substance use prevention practices, programs, and strategies.
4. Compare different methods for measuring the impact and value of prevention programs.
5. Identify national, state, and local prevention resources available to all HIDTA communities.
